

## Scenario of the PhD home defence

Title of the thesis: **Tools and Methods in Aiding Heat Exchanger Network Retrofit for Better Economic Performance**

**chair:**

**opponents:**

- 
- 

**scenario of the home defence:**

**The chair** welcomes the audience and presents briefly the goal of the event and the questions which need to be decided on (whether the results are his own ones, whether the thesis can be submitted to the Doctoral School of Information Science).

**The secretary** presents the CV of the applicant.

**The applicant** presents his thesis.

**one of** the opponents presents his review.

**the other** opponent also presents his review.

The applicant answers all the questions.

**Questions, comments, answers**

Before closing the home defence **the chair** asks two questions and asks for the opinion of the examination board:

- Taking the knowledge of the members and the presentation into consideration can the results be considered as own results of the applicant?
- does the committee suggest that the applicant submits the thesis to the Doctoral School of Information Science?

**the chair** thanks for the participation and closes the event.
